Acknowledgements

Early phases of this feasibility study were funded in part by grants from the California Endowed Fund of the National Trust for Historic Preservation and the California State Parks Foundation.

William Eisenstein Ph.D, of Eisenstein Consulting LLC., conducted early phases of the study and developed a timeline to guide the process.

Linda Stonier, National Park Service's National Heritage Area Co-Coordinator for the Pacific West Region has provided valuable advisory assistance throughout the feasibility study process. Additionally Ms. Stonier as well as Heather Scotten, National Park Service's Assistance Coordinator for Heritage Areas, reviewed the draft Delta National Heritage Area Feasibility Study and provided comments to the Delta Protection Commission.

The Study Team has been of great help in guiding the process. The team has consisted of: Margit Aramburu (University of the Pacific), Linda Bendsen (Recreational Boaters of California), Dave Breninger (California Delta Chambers and Visitors Bureau), Topper van Loben Sels (Delta Farmer), Karen Medders (North Delta Resident), Jack Michael (Recreational Boaters of California), Katie Patterson (San Joaquin County Farm Bureau), Jan Vick (Mayor, City of Rio Vista), and Bill Wells (California Delta Chambers and Visitor's Bureau).
